

## **INSTITUTIONAL MASTER PLAN (IMP) SCOPE OF WORK**

Rogue Community College intends to develop a comprehensive IMP with assistance from Opsis Architecture, LLP that integrates the requirements of RCC's institutional mission and educational programs and the needs of the communities it serves. Services will include completion of a comprehensive review, evaluation of existing facilities, identification of current and anticipated facility requirements and preparation of a plan that address the needs identified. Components of the IMP will include academic plans and development of a financial strategy to hopefully accomplish the recommended improvements.

Specific IMP objectives outlined in the Request for Proposal include:

1. Implementation of a management program for facilities and space utilization.
2. Establishment of a long-range policy to guide incremental decisions for the development of campus facilities.
3. Preparation of a capital improvements program that addresses the operational and growth needs of the College.
